HO SCALE

Canadian National Railway Class X-10 4-6-4T Baltic/"Suburban"

In 1914 the Grand Trunk Railway purchased six 4-6-4T "Baltic tank" locomotives for suburban commuter service. Built by Motreal Locomotive Works, these little "Suburbans" had a long and busy life. After the Grand Trunk Railway was consolidated into the Canadian National Railways, they were assigned Class X-10 and road numbers 45-50. We'll present the X-10s as they looked in the early 1940s and late 1950s.

The *Division Point* and *Boo-Rim* will offer this LIMITED EDITION project in different numbers. With only 105 pieces to be produced, you are well advised to contact your dealer to reserve yours!

CNR #47 on display at Steamtown U.S.A. (Scranton, PA), August 1991
