## Canadian Pacific Railway Class F-1a 4-4-4 Jubilee

In 1937 the Canadian Locomotive Company built a series of 20 4-4-4 locomotives for the Canadian Pacific. The series was designated Class F-1a "Jubilee" type. "Streamlined" in design with 75" drivers and passenger livery, these were handsome pullers! While designed for passenger service, by the end of their service lives Jubilees could be found pulling freight, varnish or both!

The *Division Point* and *Boo-Rim* will offer this LIMITED EDITION project in different numbers. We will offer a variety of these 4-4-4 thoroughbreds. With only 110 pieces to be produced, you are well advised to contact your dealer to reserve yours!
