“EAST WIND”

HO SCALE

Seasonal Train

In 1940, the "East Wind" train began service. The "East Wind" was a fast summer-only coach train which ran through from Washington D.C. to Bangor, Maine from 1940 to the late 1950s. The train was a joint effort, operated by the Pennsylvania, New Haven, Boston & Maine, and Maine Central. The railroads each contributed to a pool of passenger cars which were used on this train. During the East Wind's first two seasons (1940 and 1941) the cars used were all (temporarily) painted yellow, silver, and dark blue. The Second World War brought about an end to this practice and the cars used on the post-war East Wind remained in their normal railroad colors.

We will offer these locomotives in both pre-war and post-war versions. The *Division Point* and *Boo-Rim* will offer this LIMITED EDITION project of only 100 pieces. Contact your dealer to reserve yours!

As usual, we are indebted to those folks who publish the information and photos we need. We urge you to buy their books and photos.

* Boston and Maine Steam, Volume 1: Class P-3, P-4, and P-5 Pacifics by Robert A. Liljestrand, David R. Sweetland (2008, Bob's Photo)

* "The East Wind - New England Canary", article in PRRTS The Keystone, Vol. 38, No. 4, by Chuck Blardone (Winter 2005),

pp. 10-55. (the best overall treatment, with good EW color pix).(2005, Pennsylvania Railroad Technical & Historical Society)

* Also, thanks to the historical societies and collectors who preserve the drawings and photos
