

Fairbanks-Morse H15-44 Road Switcher

HO SCALE

To compete with Alco and Baldwin, in 1947 Fairbanks-Morse introduced the H15-44. This 1,500hp "All Purpose" or "General Service locomotive came with Loewy's styling touches - curved cab windows, slightly sloped ends and raised headlight mounts. The H-15-44 was superseded in April 1950 by the 1,600-hp H16-44.

The **Division Point** will offer a wide range of the H15-44s. We are listing most of the roads' variants for your consideration, and we await your feedback! Target delivery is 2008. Call your **Division Point** dealer!

As usual, we are indebted to those folks who publish the information and photos we need. Dave Sweetland's book has particularly helpful! We urge you to buy their books and photos.
