

Louisville & Nashville Class J-1a, J-2, J-2a 2-8-2 Mikados

HO SCALE

O.K., you crazy and neglected L&N rail fans. I've got to admit, thanks to our recent "stealth" L&N cabooses, I've had a few requests for a L&N steam project. It's been suggested that I forget about USRA locos, and do something particularly "Old Reliable".

So here we go . . . how about the truly "Old Reliable" J-1a, J-2 and J-2a Mikados? Talk about reliable, these 2-8-2s lasted through the end of steam! Built by the L&N at their South Louisville shops, from 1914-1921, these "drag" Mikes spent their lives hauling coal and doing transfer and hump service in Kentucky and around Cincinnati. Any real L&N modeler needs a couple of these Mikes. We'll offer these locomotives in 1940s - 1950s era guise.

The **Division Point** and **Boo-Rim** will offer this LIMITED EDITION project in different classes and road numbers. You are well advised to contact your dealer to reserve yours!

We are indebted to those folks who publish the information and photos we need. We urge you to buy their books and photos:

Louisville & Nashville Steam Locomotives by Richard E. Prince (2000 reprint, Indiana University Press, Bloomington, IN) . . . a definitive work!

L&N #1495, Class J-2a Mikado

L&N #1495, Class J-2a Mikado
